ASSEMBLY INSTRUCTIONS

DVP41008
DVP41024

Warning
All electrical connections must be made according to local codes. If you feel you do not have the experience necessary to do this, please have your fixture installed by a qualified, licensed electrician.

Make sure to note the maximum recommended wattage for your light fixture.
DO NOT EXCEED THE RECOMMENDED WATTAGE:

DVP41008 - 1 x 40W AC LED
DVP41024 - 1 x 50W AC LED

Cleaning
We recommend that you use a mild detergent, such as dish washing soap, and warm water to clean the glass and metal surfaces. After cleaning, make sure to dry the fixture completely because moisture will corrode the satin finish. Use a damp soft cloth to wipe off dust. DO NOT use abrasive pads or cleaning materials.

During installation, some fixtures may require subtle adjustments in order for the fixture to look as intended.

Tools

Phillips head screwdriver
Allen key

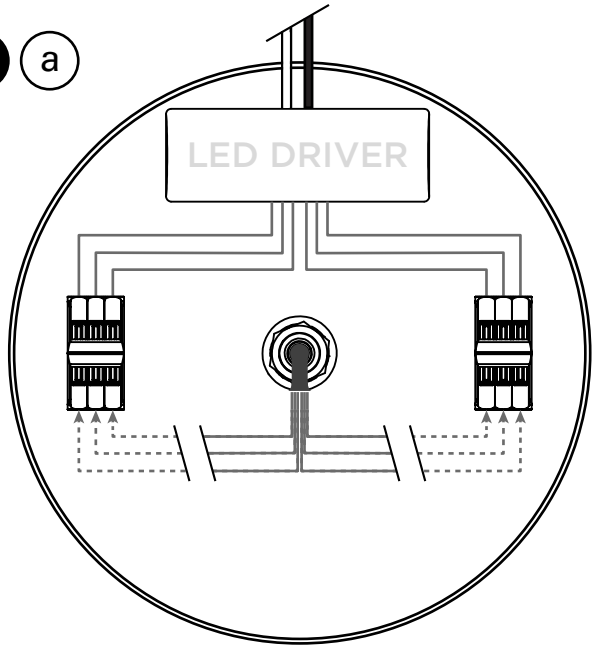
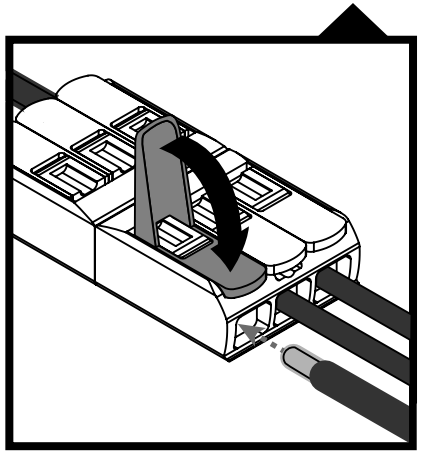
3 a



3 b

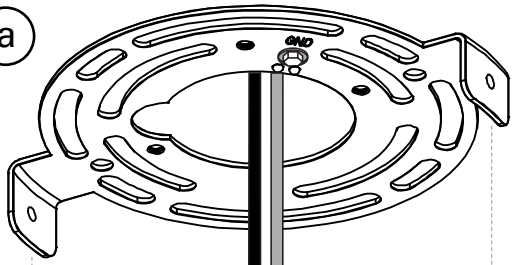


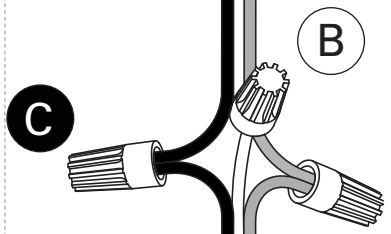
Connect Fixture Wires To Splicing Connectors

3a Cut the excess length of each fixture wire leaving enough to easily reach the splicing connectors.

3b Connect the **blue, brown, white, red, grey, and yellow fixture wires** to the splicing connector in line with the matching pre-attached wires.

4 a





A. Connect the copper ground wire to ground wire - If you only have two wires coming from the electrical box, connect the fixture's copper wire to the green ground screw on the mounting plate.

B. Connect the white fixture wire to white supply wire.

C. Connect the black fixture wire to black supply wire.

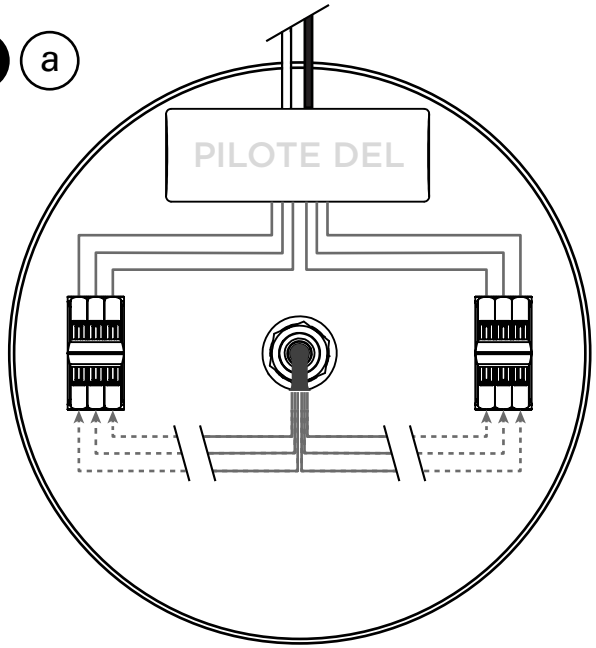
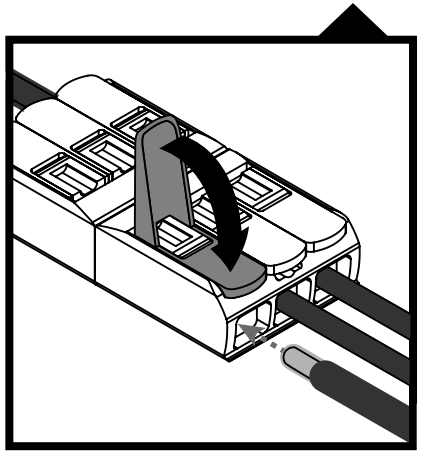
3 a



3 b

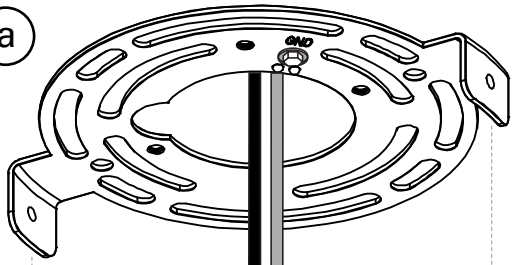


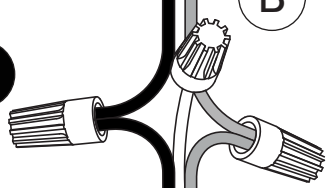
Fixez les fils du luminaire au connecteur d'épissure

3a Coupez l'excédent des fils du luminaire en prenant soin d'en laisser assez pour les connecter au connecteur d'épissure.

3b Connectez les fils **bleu, brun, blanc, rouge, gris, et jaune du luminaire** au connecteur d'épissure vis-à-vis des fils aux couleurs correspondantes.

4 a





A. Fixez le fil de terre en cuivre à la mise à la terre. S'il n'y a que deux fils qui sortent de la boîte de sortie électrique, fixez le fil en cuivre de l'appareil d'éclairage à la vis de terre en vert de la barre transversale.

B. Brancher le fil blanc au fil à nervures(neutre) du luminaire.

C. Brancher le fil noir au fil noir du luminaire.
